

Harvard Model Congress

Boston 2024

Hi HMC!

Our names are Audrey Moorehead, Tsion Debebe, Alan Zhang, Nellie Fitzpatrick, and Alexandria Westray and we are extremely excited to be your staffers for the National Security Council! First, here's a little information about us.

Tsion is a sophomore from Seattle, Washington studying Government with a secondary in Ethnicity, Migration, and Rights. This will be her first time staffing HMC Boston. In addition to Model Congress, Conner is actively involved with Harvard Undergraduate Consulting on Business and the Environment, the Ethiopian and Eritrean Student Association, and the Harvard Undergraduate Association Inclusion Team. She is very excited to meet you all at HMC Boston!

Audrey is a junior from Lynchburg, TN studying English. On campus and outside of Harvard Model Congress, she's involved with Harvard Undergraduates for Bipartisan Solutions, Harvard College Christian Students. In her free time she can be found sipping Starbucks, reading, watching Friends or hanging out with her Service Dog, Czarina!

Alan is a senior from West Bloomfield, MI studying Molecular and Cellular Biology. On campus, he's involved with polling at the Harvard Public Opinion Project, student journalism at the Harvard Political Review, and citizenship tutoring for aspiring U.S. citizens. In his free time, you can find Alan watching Star Trek, listening to classical music, and spending an unreasonably large amount of time on Twitter.

Alexandria is a sophomore from Pittsburgh, Pennsylvania, studying Government in the Technology track with a secondary in Computer Science and citation in Arabic. She is involved in Tech 4 Social Good, the Institute of Politics, and the Harvard AI Safety Team. When she's not in class, Alexandria works at the Queen's Head Pub or procrastinates homework with her friends.

Nellie is a first-year student from New York, NY, and is undecided on her concentration. On campus and outside of Harvard Model Congress, she's involved with the Reserve Officers Training Corps (ROTC), the Harvard Catholic Center, and the

Harvard Club Squash Team. If you're fast enough, you can catch her along the Charles River riding a BlueBike or running.

The National Security Council is an incredibly important part of the executive branch and the federal government as a whole, advising the President on a myriad of issues that directly affect the safety of the United States and its citizens. As members of this council, you will have to understand incredibly complex problems and balance a myriad of social, legal, and political perspectives in order to come up with comprehensive solutions to the problems we will be discussing.

In our committee, we will be discussing the issue of Unidentified Aerial Phenomena and Whistleblowers in the United States.

Please feel free to reach out with any questions you might have relating to the briefing, Harvard Model Congress, or anything at all! We can't wait until the conference!

Sincerely,

Tsion, Audrey, Alan, Alexandria, and Nellie
